19th Annual Golden Eagle Survey *January 21, 2023*

Join this exciting citizen science project!

On January 21, 2023, over 200 citizen scientist volunteers from the National Eagle Center will spread out across the blufflands and forested areas of southeast Minnesota, western Wisconsin, eastern Iowa, and northwestern Illinois for the **19th Annual Wintering Golden Eagle Survey**. The Center greatly appreciates all the time and energy that these citizen scientists dedicate to this survey and ongoing research.

Interested in becoming a Golden Eagle citizen scientist?

As we expand the survey across the area and create new routes, we are looking for new surveyors/citizen scientists. If you are interested in surveying for the first time, all you need to do is attend one of the following virtual training sessions:

1/8/2023 @ 2:00PM: Golden Eagle Survey Training Session 1

1/10/2023 @ 6:30PM: Golden Eagle Survey Training Session 2

1/16/2023 @ 2:00PM: Golden Eagle Survey Training Session 3

If you are interested in joining one of the above sessions please send your name, where you live and the training date and time that works for you to golden@nationaleaglecenter.org.

If you have already completed a training session in the past, have had a route in previous years, and are able to help out once again, please send an email to golden@nationaleaglecenter.org with your interest by January 6th to keep your route.

2022 Overview:
Citizen Scientist Observers: 195
Survey Routes: 73
States Covered: MN, WI, IA, IL
Counties: 51
Miles Driven: 7,209
Total Hours: 602+

Golden Eagles Observed:

2022: 99
2021: 126
2020: 119
2019: 145
2018: 62

Bald Eagles Observed:

2022: 1,643
2021: 1,433
2020: 1,403
2019: 1,391
2018: 1,202
